

# LXSeries Pro Emergency License

Windows 10 Download and Install Instructions

# Visit the LXSeries Pro Emergency License web page:

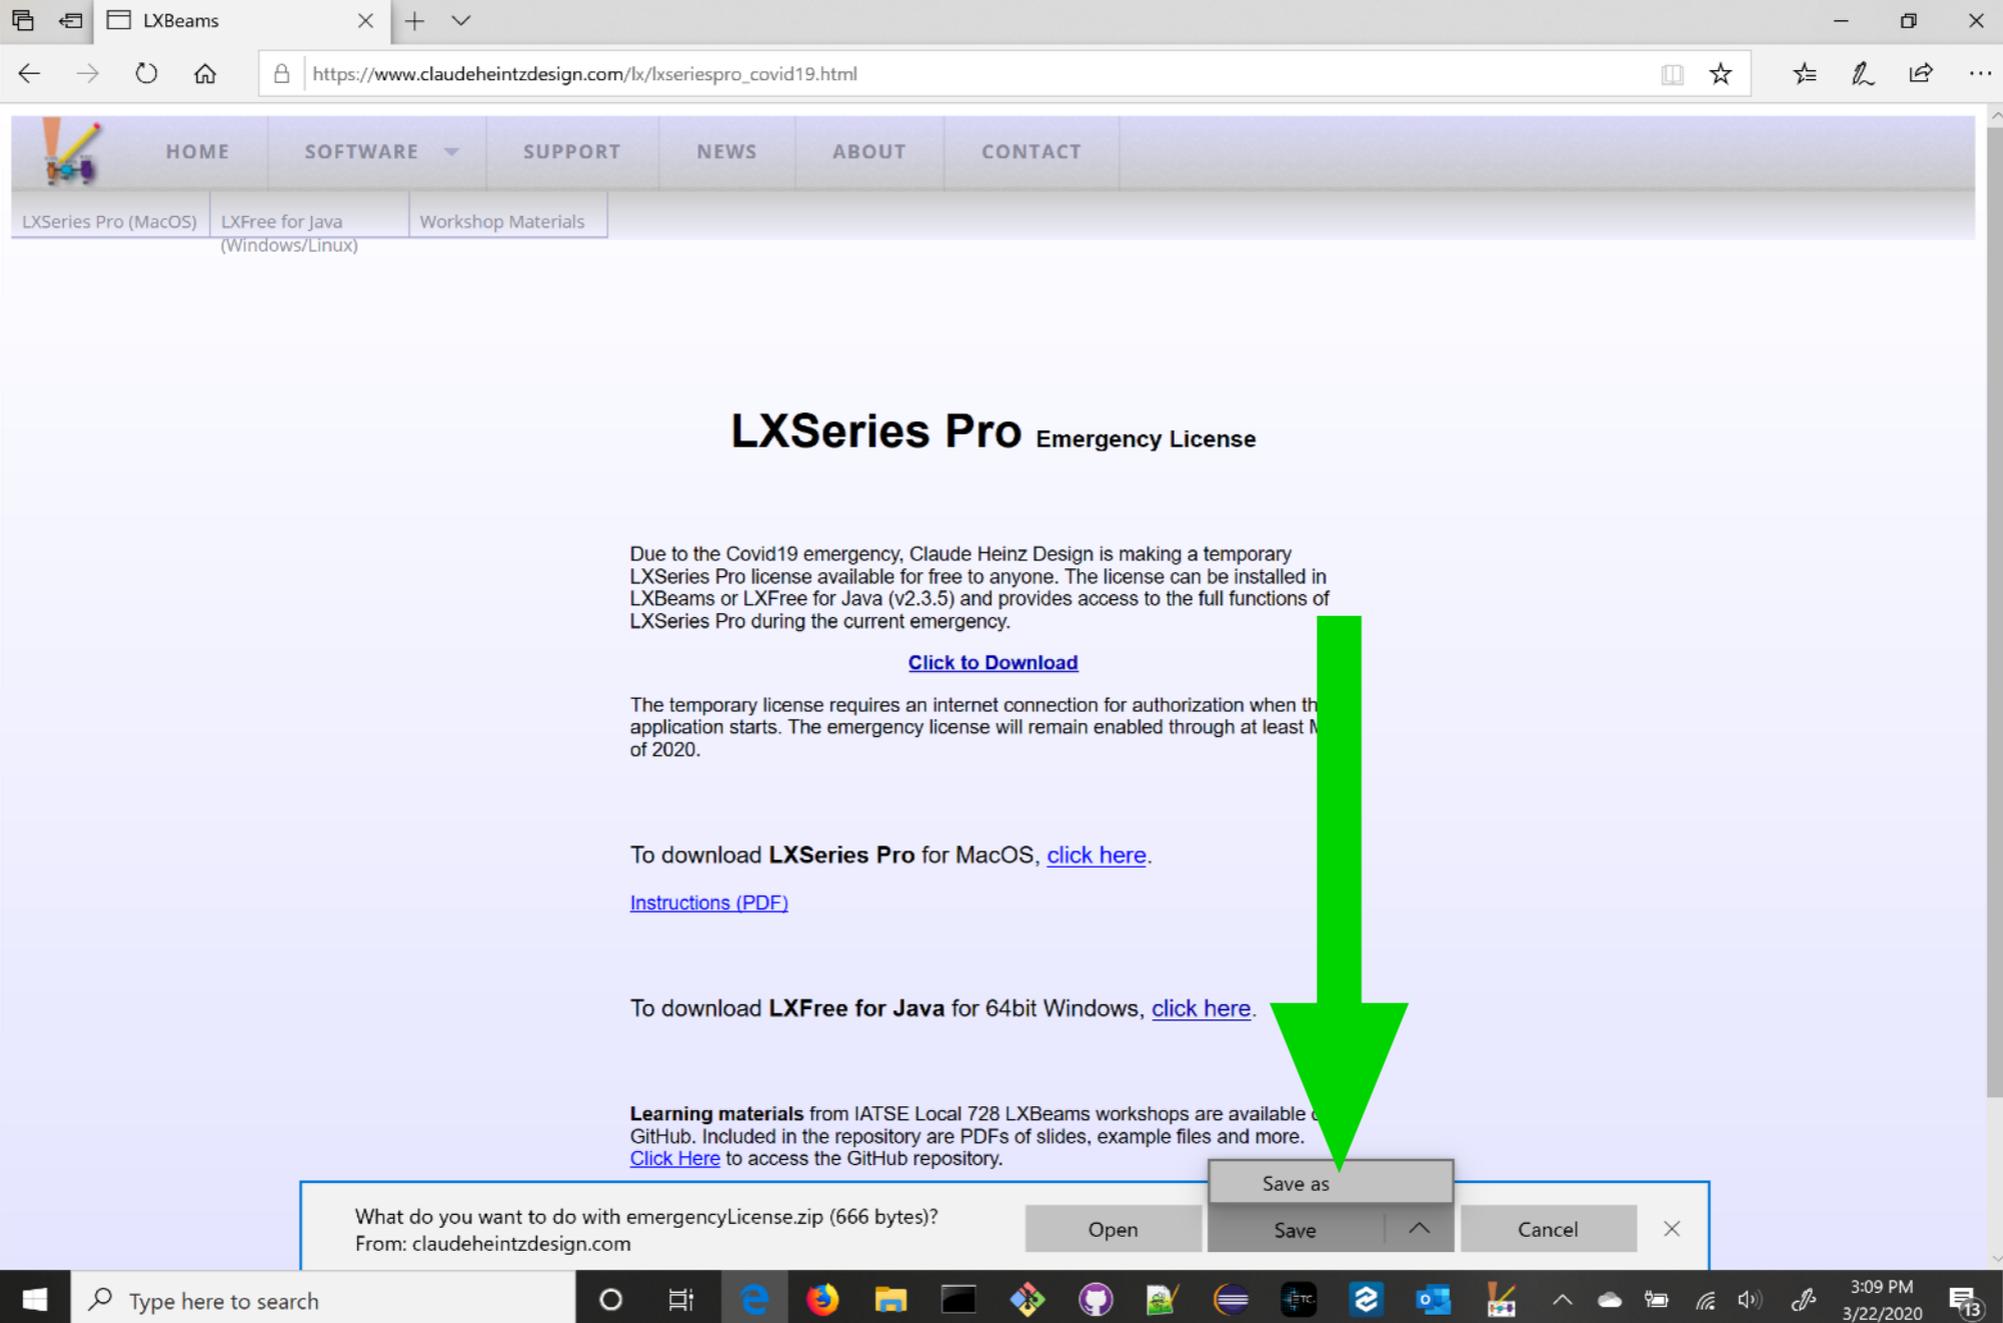

[https://www.claudeheintzdesign.com/lx/lxseriespro\\_covid19.html](https://www.claudeheintzdesign.com/lx/lxseriespro_covid19.html)

Click on the link to download the temporary license.

The screenshot shows a web browser window with the address bar displaying [https://www.claudeheinzdesign.com/lx/lxseriespro\\_covid19.html](https://www.claudeheinzdesign.com/lx/lxseriespro_covid19.html). The browser's address bar also shows the text 'LXBeams'. The website's navigation menu includes 'HOME', 'SOFTWARE', 'SUPPORT', 'NEWS', 'ABOUT', and 'CONTACT'. Below the navigation menu, there are three tabs: 'LXSeries Pro (MacOS)', 'LXFree for Java (Windows/Linux)', and 'Workshop Materials'. The main content area features a large heading: **LXSeries Pro** Emergency License. Below the heading, a paragraph explains: "Due to the Covid19 emergency, Claude Heinz Design is making a temporary LXSeries Pro license available for free to anyone. The license can be installed in LXBeams or LXFree for Java (v2.3.5) and provides access to the full functions of LXSeries Pro during the current emergency." A blue link labeled "Click to Download" is positioned below this paragraph, and a large green arrow points directly to it. Further down, another paragraph states: "The temporary license requires an internet connection for authorization when the application starts. The emergency license will remain enabled through at least May of 2020." Below this, there are two more paragraphs: "To download **LXSeries Pro** for MacOS, [click here](#)." followed by "[Instructions \(PDF\)](#)", and "To download **LXFree for Java** for 64bit Windows, [click here](#)." At the bottom of the page, a paragraph mentions: "**Learning materials** from IATSE Local 728 LXBeams workshops are available on GitHub. Included in the repository are PDFs of slides, example files and more. [Click Here](#) to access the GitHub repository." The Windows taskbar is visible at the bottom of the screen, showing the search bar and various application icons. The system tray on the right indicates the time is 3:05 PM on 3/22/2020.

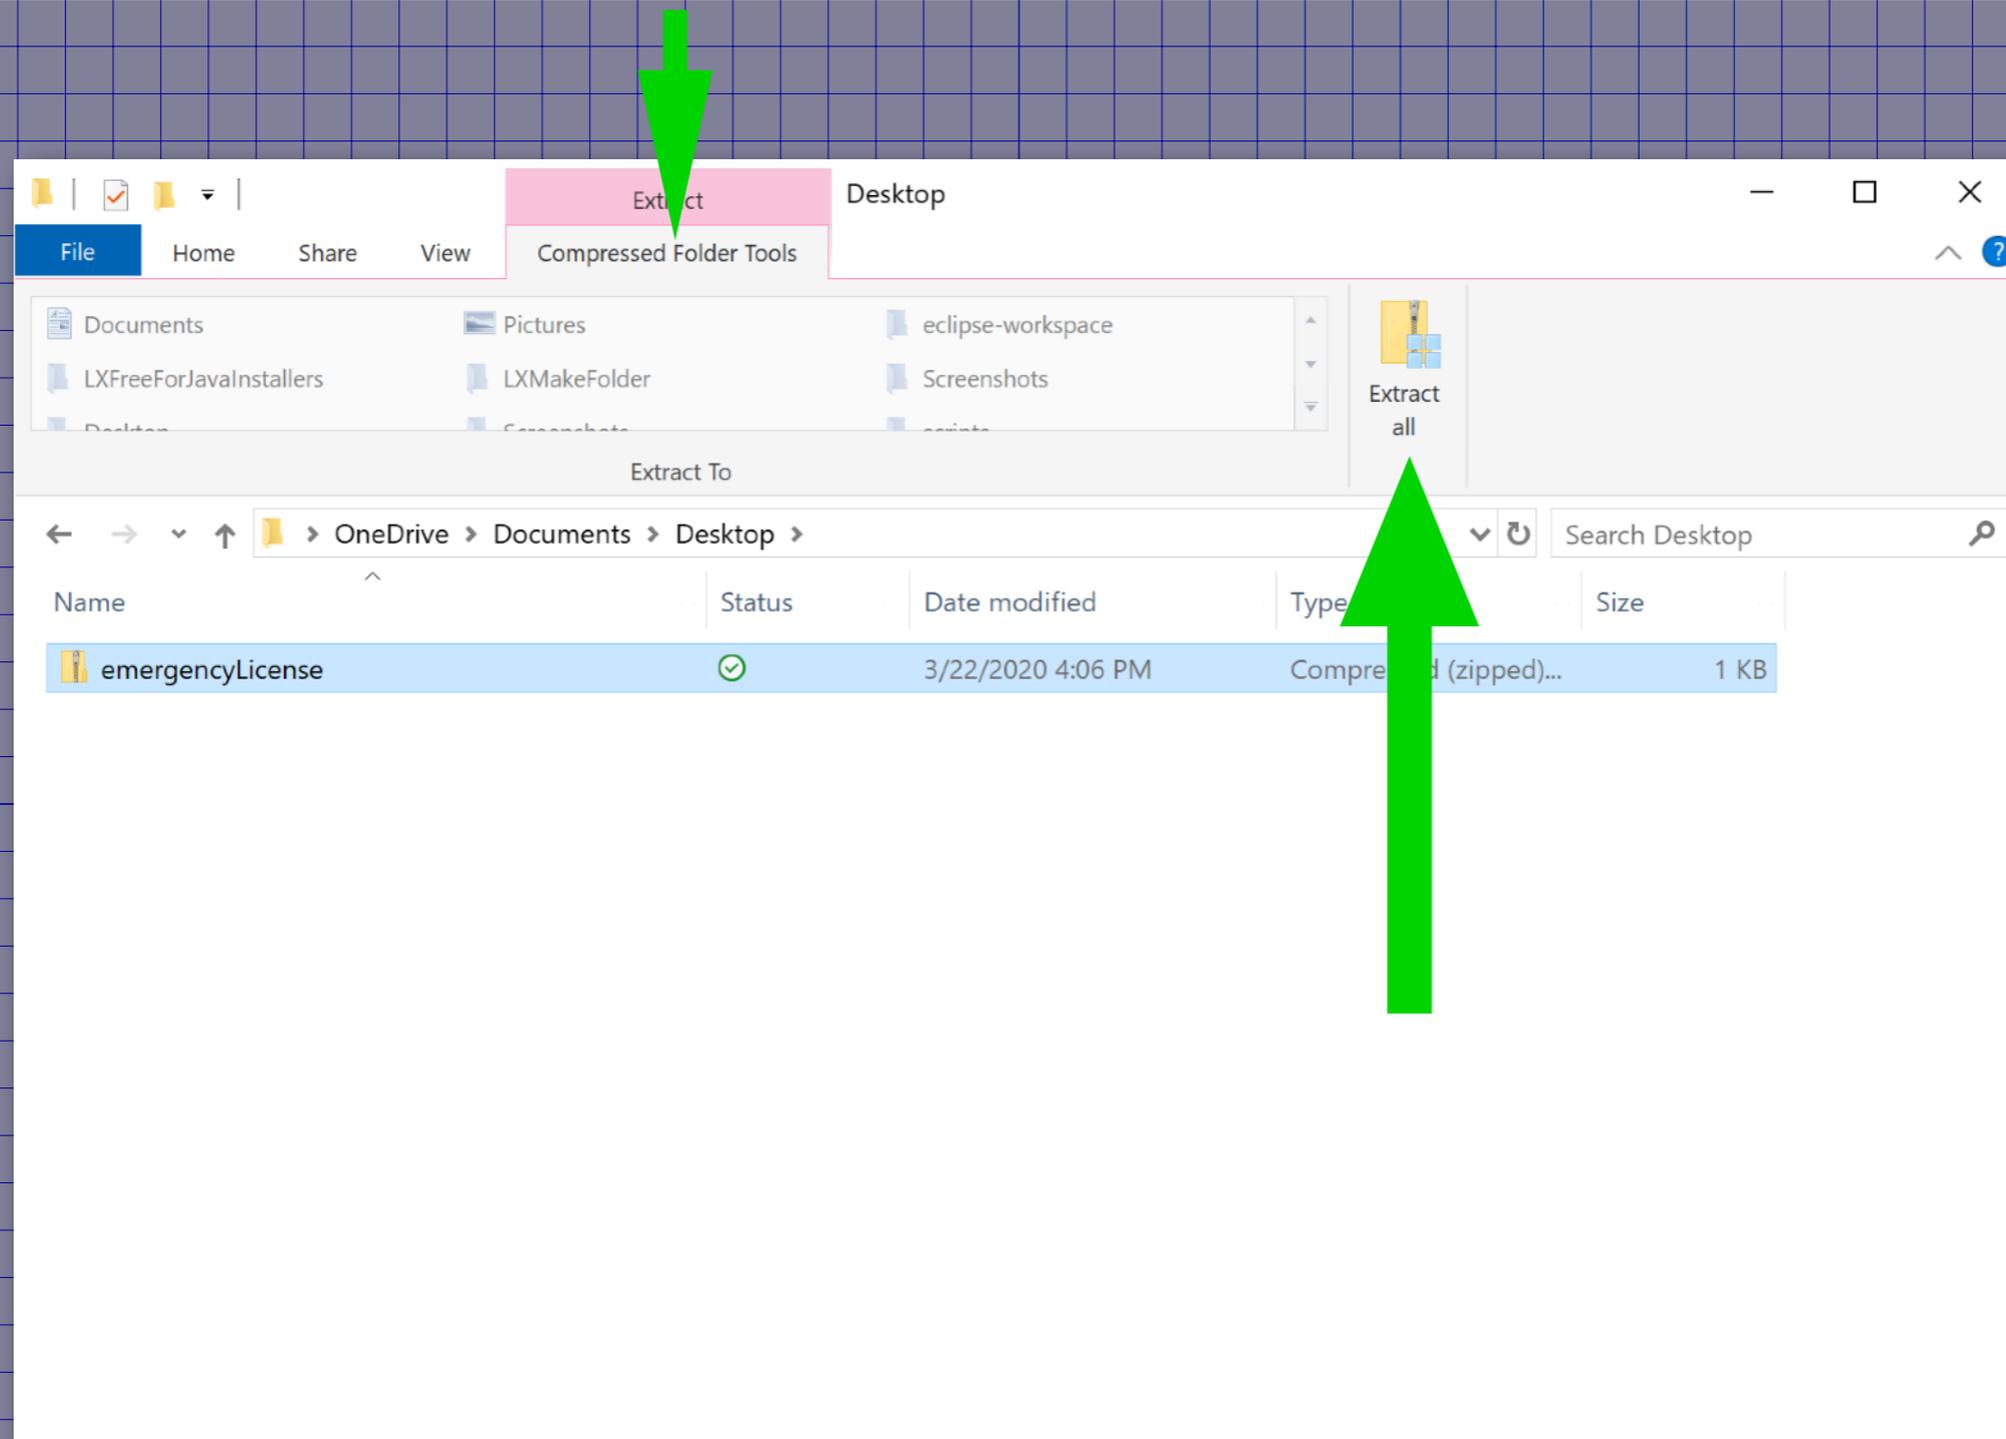

Save the **emergencyLicense.zip** file in a place you can find it.

The screenshot shows a web browser window with the URL [https://www.claudeheintzdesign.com/lx/lxseriespro\\_covid19.html](https://www.claudeheintzdesign.com/lx/lxseriespro_covid19.html). The page title is "LXSeries Pro Emergency License". The main content includes a paragraph explaining the temporary license due to the COVID-19 emergency, a "Click to Download" link, and instructions for downloading LXSeries Pro for MacOS and LXFree for Java for 64bit Windows. A green arrow points from the "Click to Download" link to a "Save as" dialog box that is open at the bottom of the browser. The dialog box asks "What do you want to do with emergencyLicense.zip (666 bytes)? From: claudheintzdesign.com" and has buttons for "Open", "Save", and "Cancel". The Windows taskbar is visible at the bottom, showing the time as 3:09 PM on 3/22/2020.

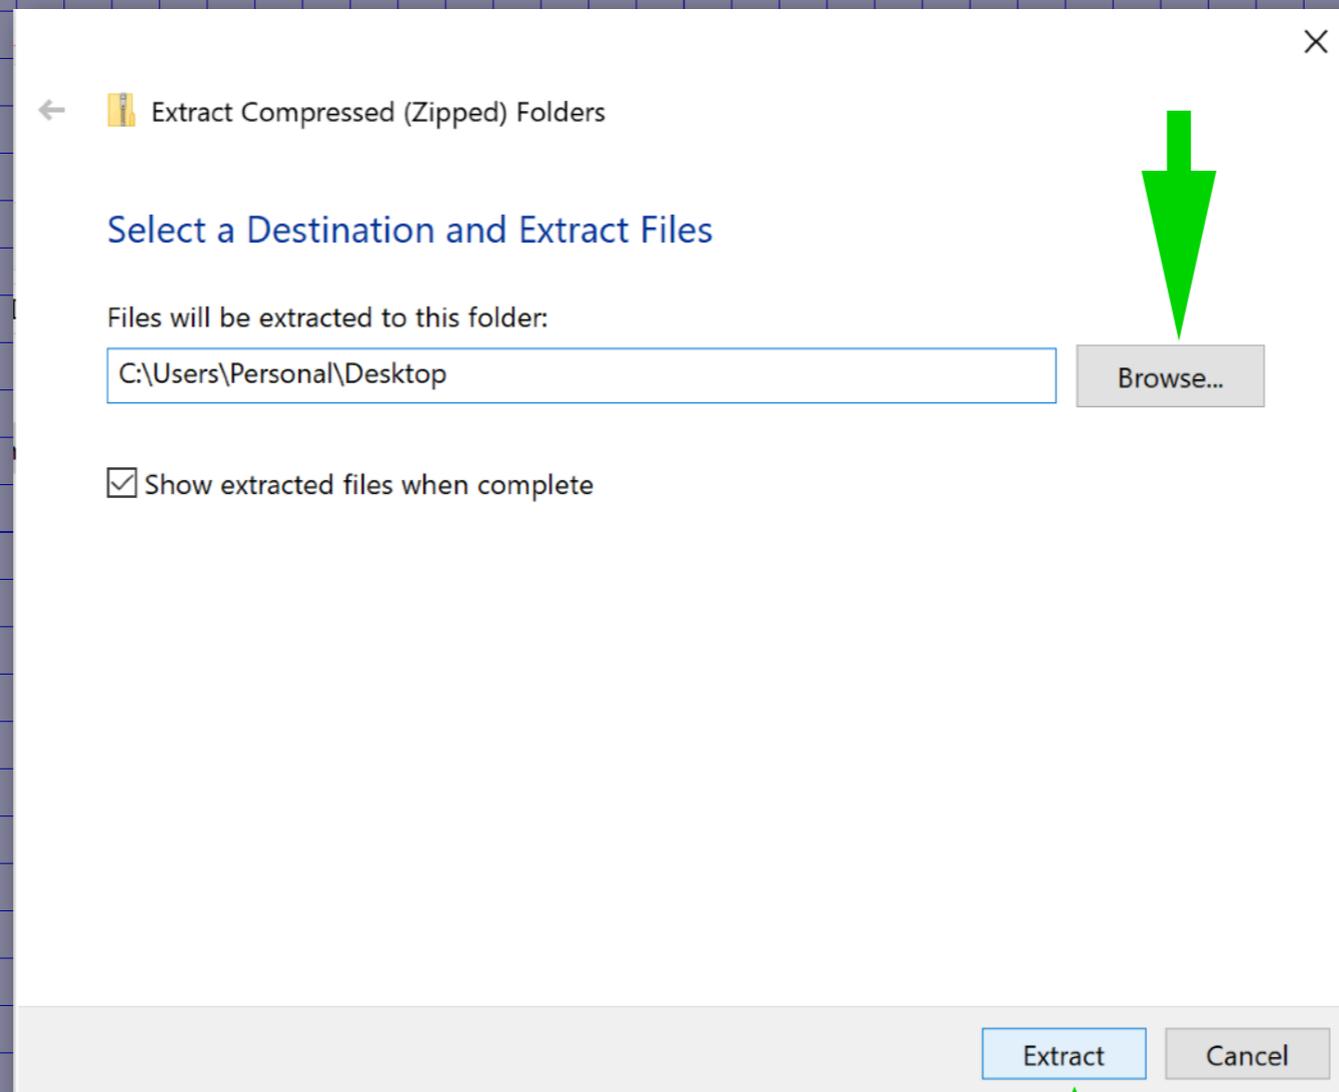

You can Save As the file to your **Desktop**.  
Otherwise the file will be in your **Downloads** folder.

Locate the **emergencyLicense.zip** file in an Explorer window.

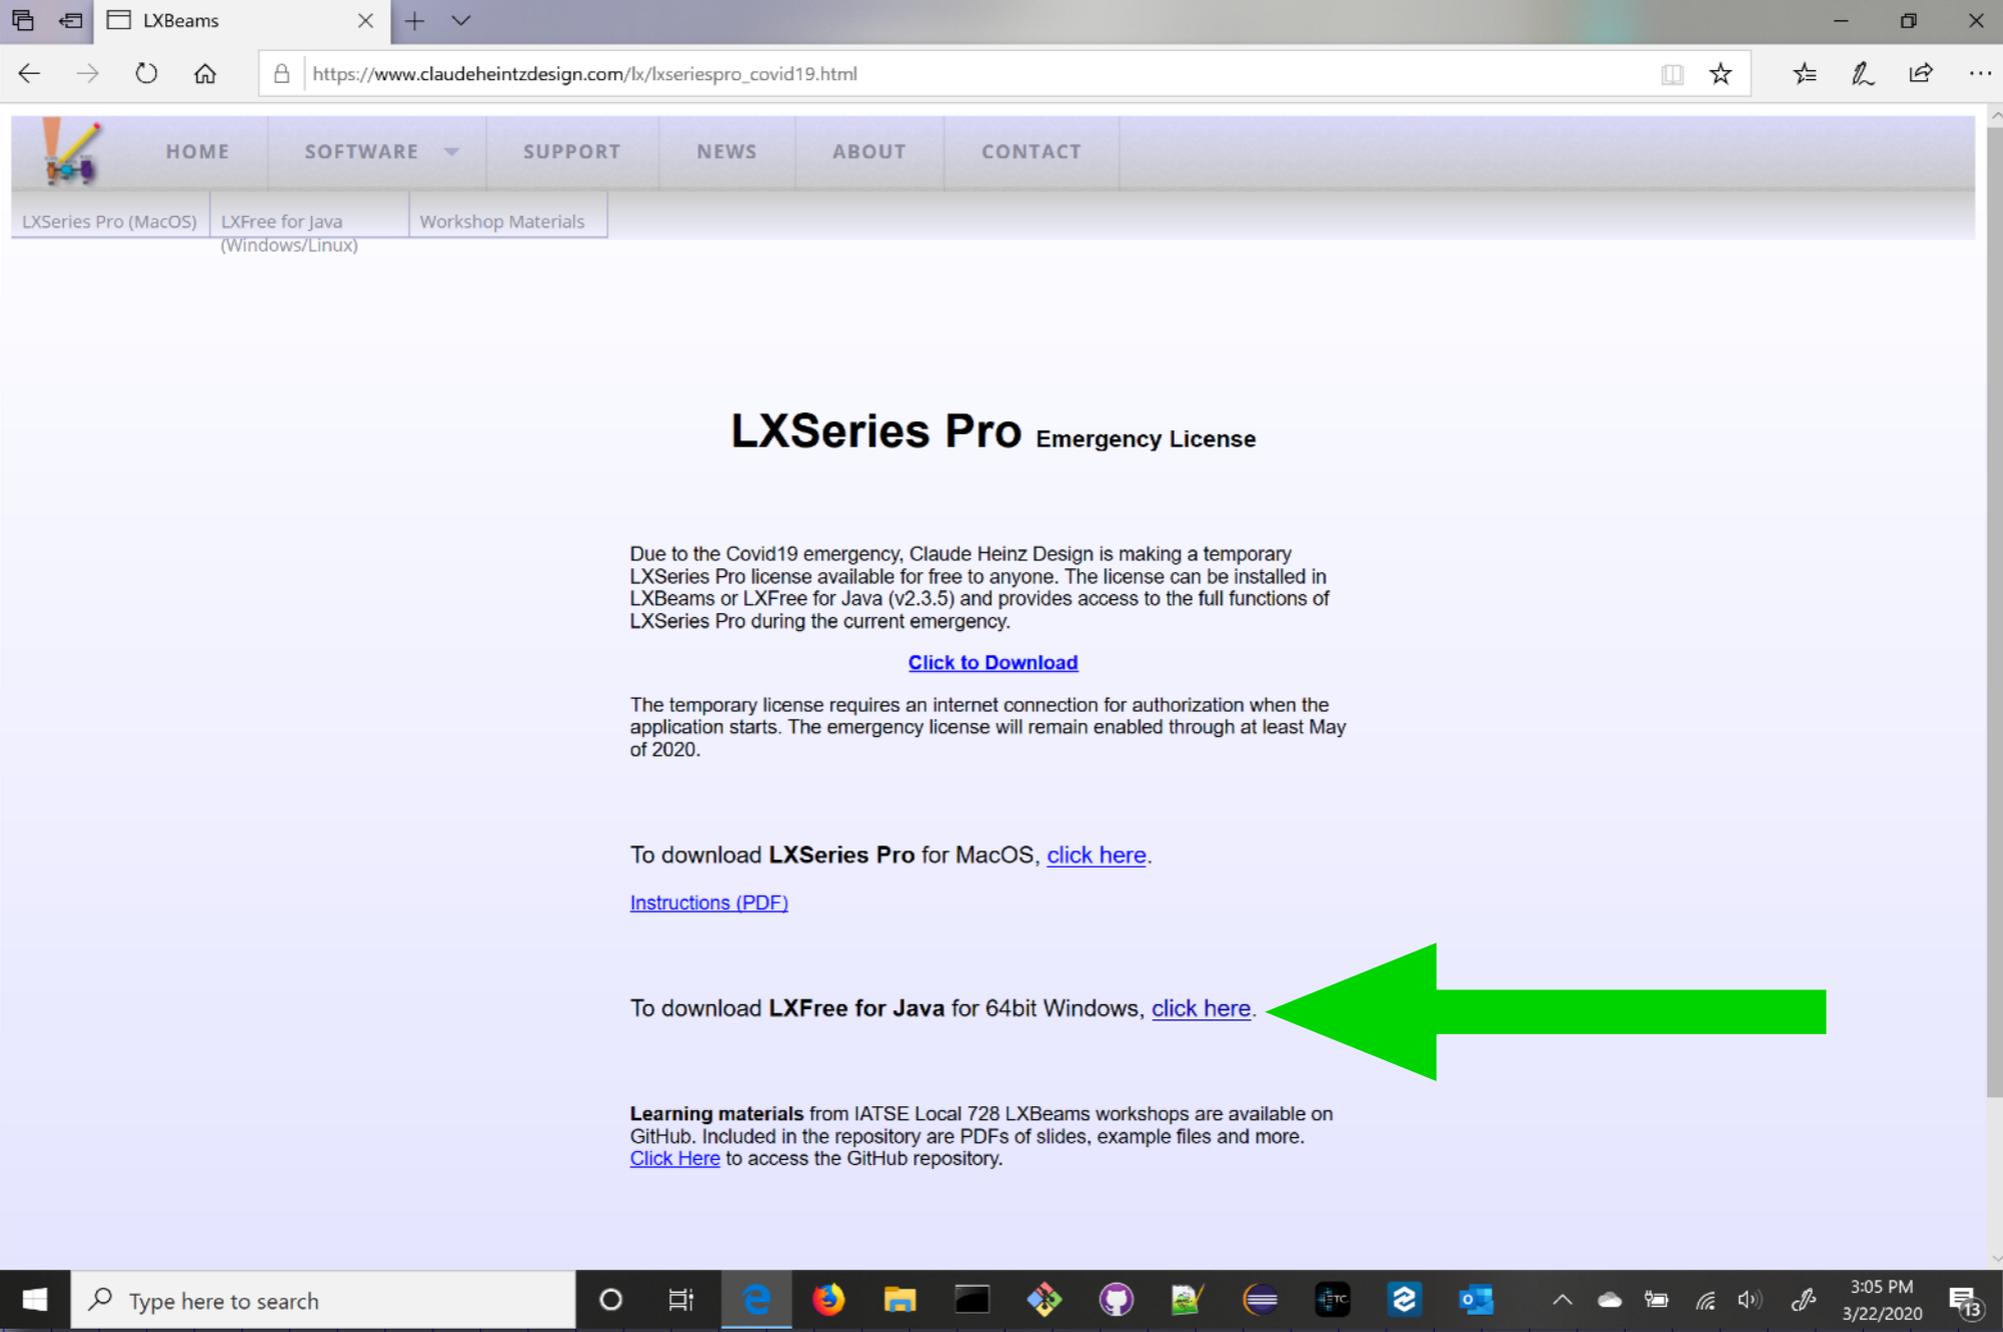

From "Compressed Folder Tools" click "Extract All".

Choose a location you can easily find, like your Desktop  
To extract the **emergencyLicense.lxseriespro** file.

Click "Extract"

Switch back to your browser.

The screenshot shows a web browser window with the URL [https://www.claudeheinzdesign.com/lx/lxseriespro\\_covid19.html](https://www.claudeheinzdesign.com/lx/lxseriespro_covid19.html). The page has a navigation menu with links for HOME, SOFTWARE, SUPPORT, NEWS, ABOUT, and CONTACT. Below the menu are three tabs: LXSeries Pro (MacOS), LXFree for Java (Windows/Linux), and Workshop Materials. The main content area is titled "LXSeries Pro Emergency License".

Due to the Covid19 emergency, Claude Heinz Design is making a temporary LXSeries Pro license available for free to anyone. The license can be installed in LXBeams or LXFree for Java (v2.3.5) and provides access to the full functions of LXSeries Pro during the current emergency.

[Click to Download](#)

The temporary license requires an internet connection for authorization when the application starts. The emergency license will remain enabled through at least May of 2020.

To download **LXSeries Pro** for MacOS, [click here](#).

[Instructions \(PDF\)](#)

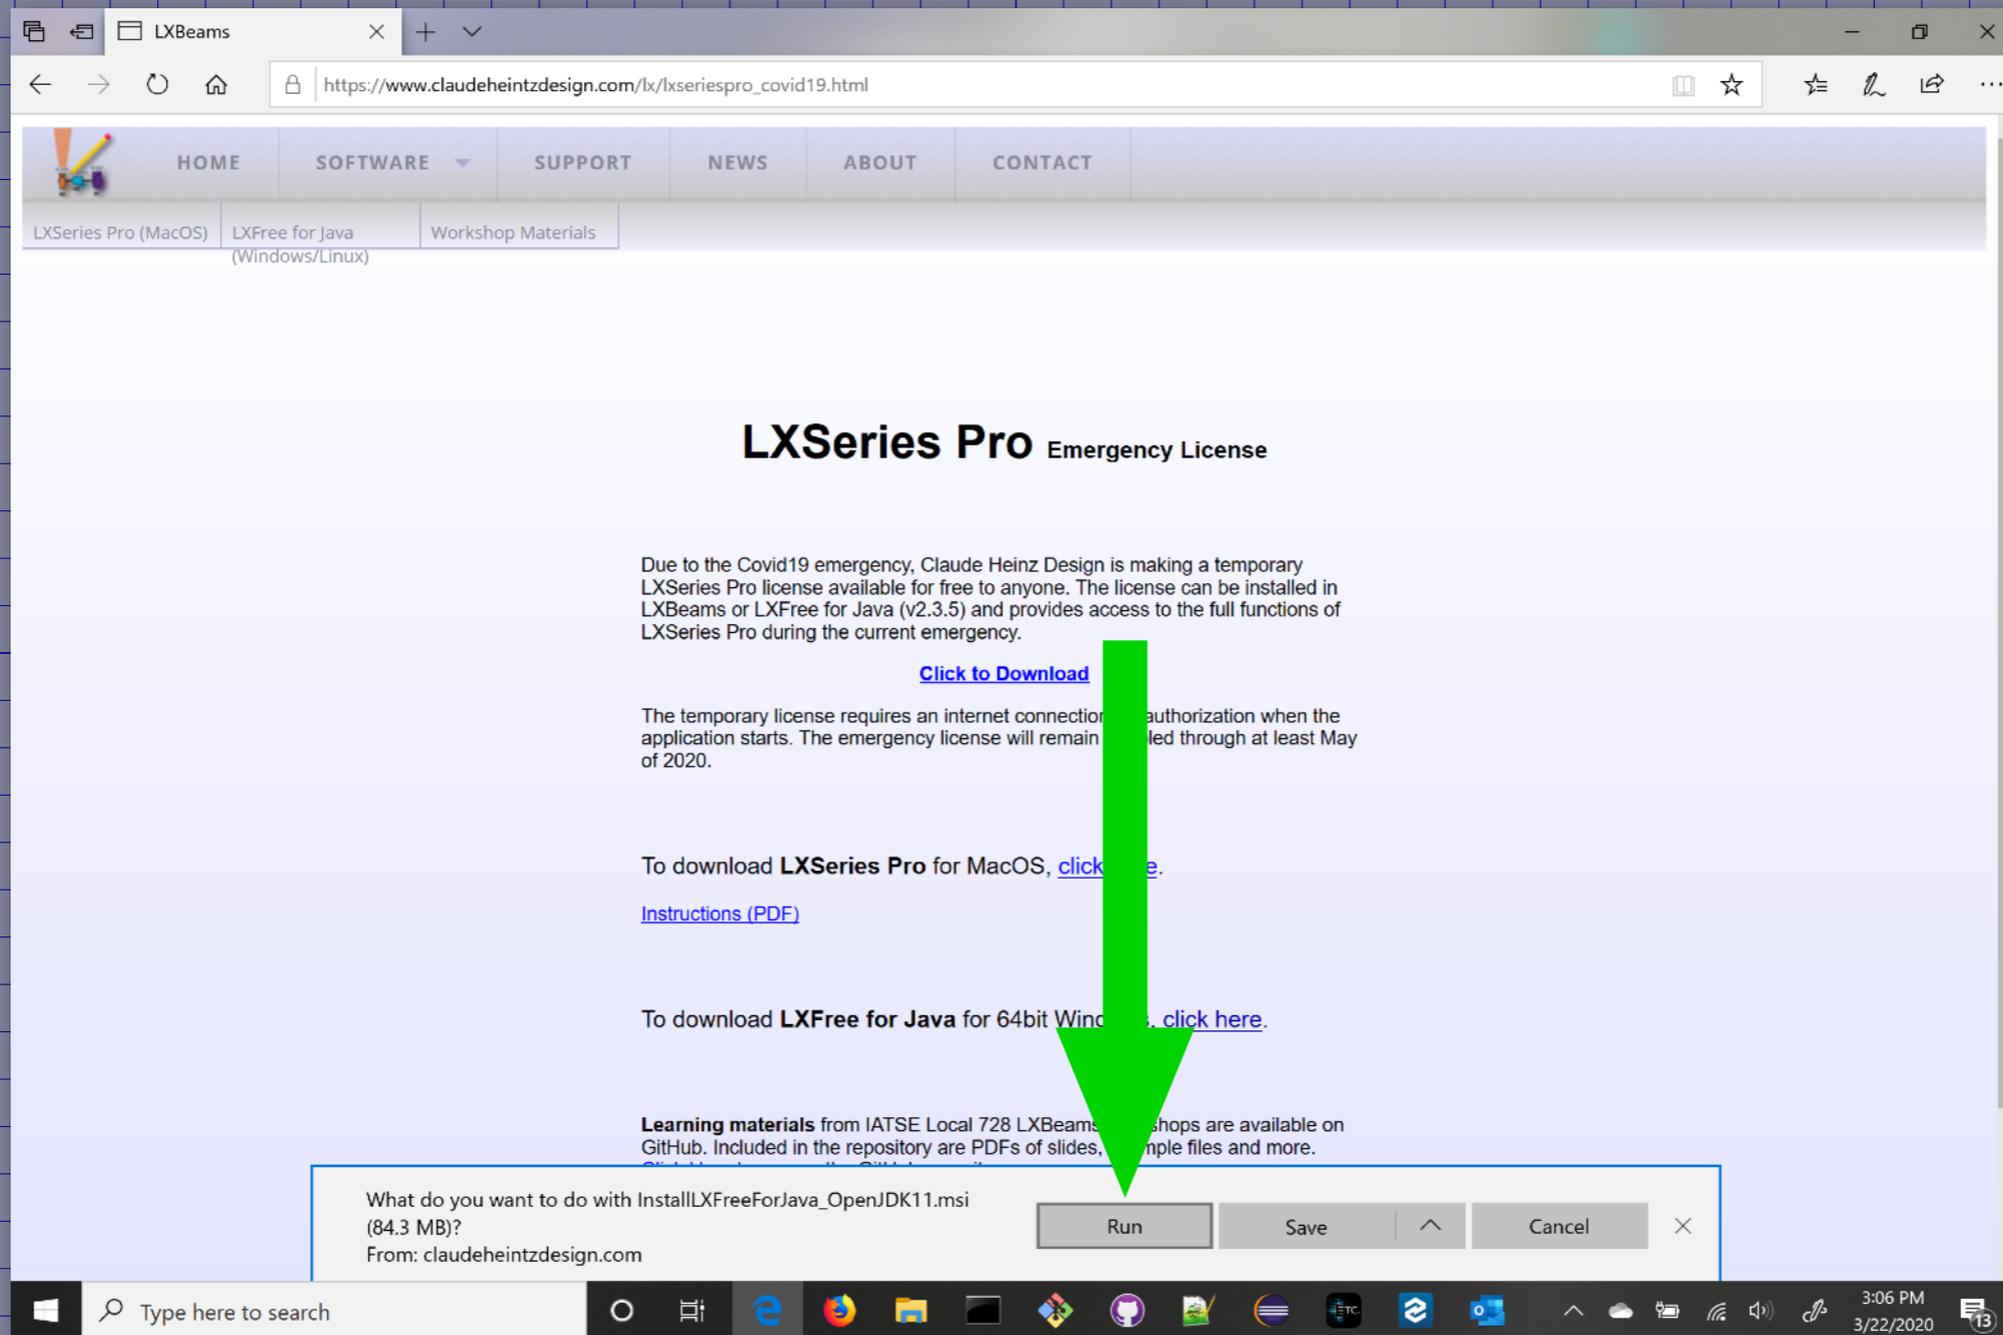

To download **LXFree for Java** for 64bit Windows, [click here](#).

**Learning materials** from IATSE Local 728 LXBeams workshops are available on GitHub. Included in the repository are PDFs of slides, example files and more. [Click Here](#) to access the GitHub repository.

A large green arrow points to the "click here" link for downloading LXFree for Java.

Click on the LXFree for Java download link.

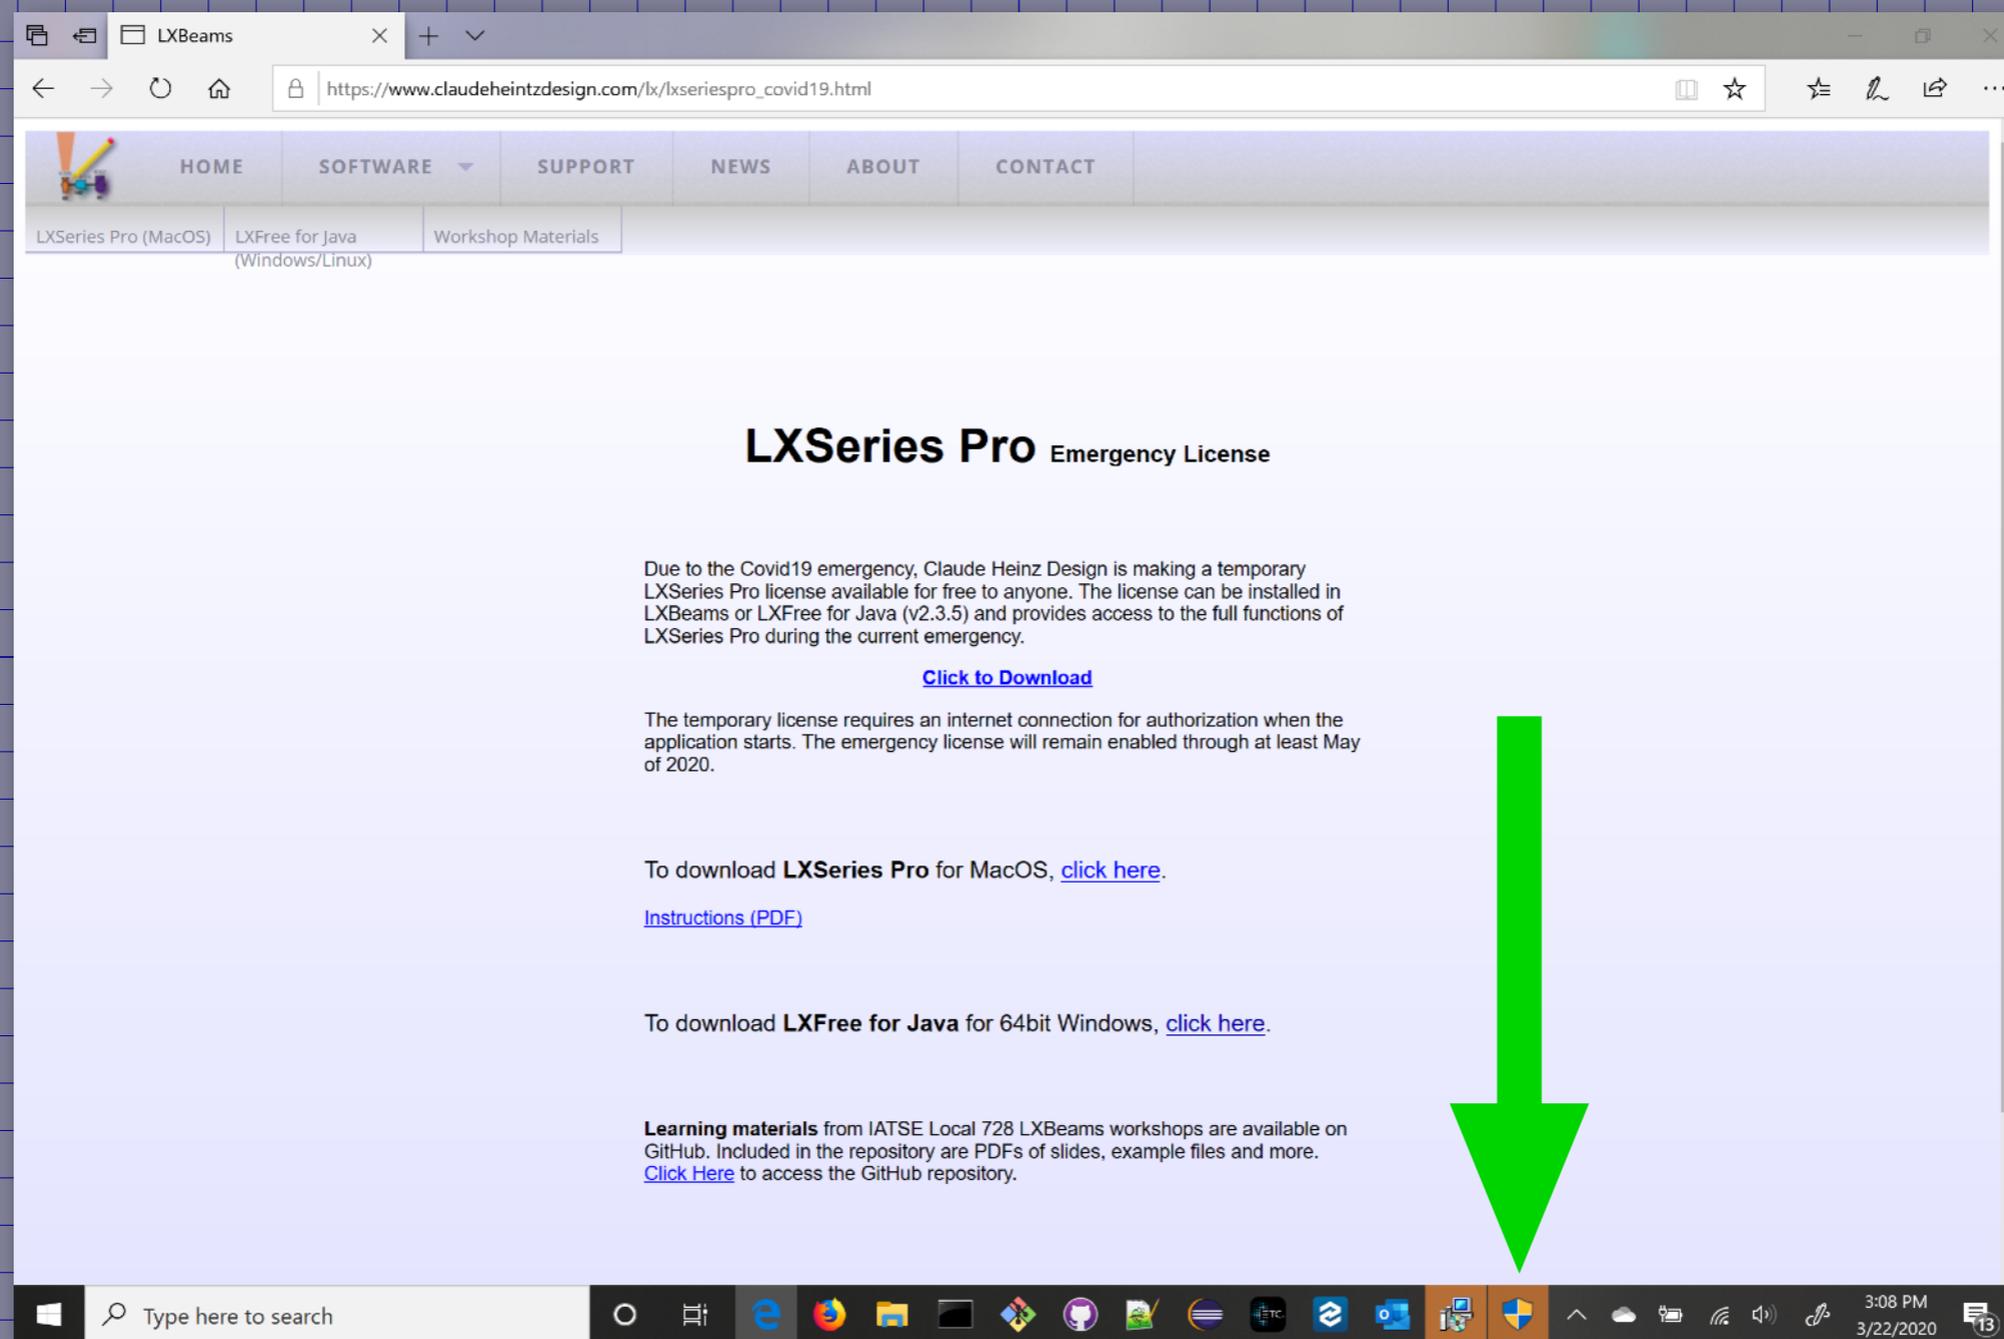

When asked, choose to run the installer.

The screenshot shows a web browser window with the URL [https://www.claudeheintzdesign.com/lx/lxseriespro\\_covid19.html](https://www.claudeheintzdesign.com/lx/lxseriespro_covid19.html). The page title is "LXSeries Pro Emergency License". The main content includes a paragraph explaining the temporary license due to the COVID-19 emergency, a "Click to Download" link, and instructions for downloading LXSeries Pro for MacOS and LXFree for Java for 64bit Windows. A Windows file dialog box is open over the "Click to Download" link, showing the file name "InstallLXFreeForJava\_OpenJDK11.msi" (84.3 MB) and the source "From: claudheintzdesign.com". The dialog box has "Run", "Save", and "Cancel" buttons. A large green arrow points from the "Click to Download" link down to the "Run" button in the dialog box.

You can also save the `InstallLXFreeForJava_OpenJDK11.msi` file and run the installer from your downloads.

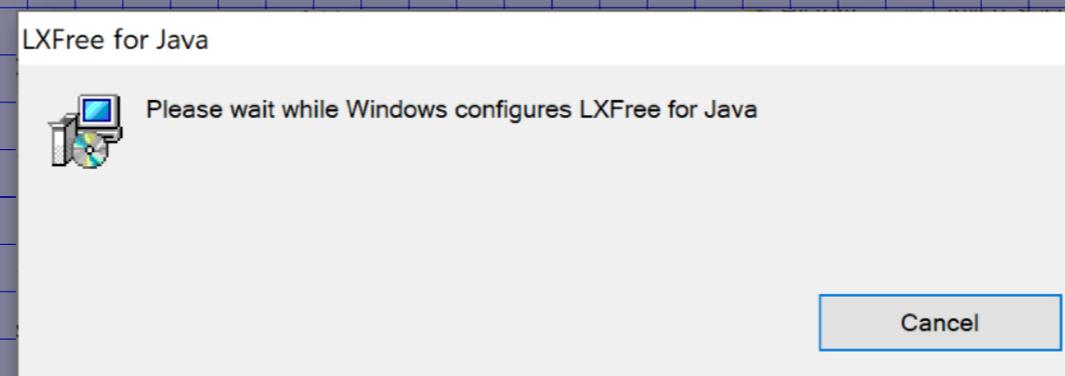

The installer will run when the file is completely downloaded.  
You will see its icon in the task bar.

The screenshot shows a web browser window with the URL [https://www.claudeheinzdesign.com/lx/lxseriespro\\_covid19.html](https://www.claudeheinzdesign.com/lx/lxseriespro_covid19.html). The page title is "LXSeries Pro Emergency License". The content includes a navigation menu with "HOME", "SOFTWARE", "SUPPORT", "NEWS", "ABOUT", and "CONTACT". Below the menu are tabs for "LXSeries Pro (MacOS)", "LXFree for Java (Windows/Linux)", and "Workshop Materials". The main text states: "Due to the Covid19 emergency, Claude Heinz Design is making a temporary LXSeries Pro license available for free to anyone. The license can be installed in LXBeams or LXFree for Java (v2.3.5) and provides access to the full functions of LXSeries Pro during the current emergency." A blue link "Click to Download" is present. Below this, it says: "The temporary license requires an internet connection for authorization when the application starts. The emergency license will remain enabled through at least May of 2020." There are two more blue links: "click here" for downloading LXSeries Pro for MacOS and "click here" for downloading LXFree for Java for 64bit Windows. At the bottom, it mentions "Learning materials from IATSE Local 728 LXBeams workshops are available on GitHub" and provides a "Click Here" link. A large green arrow points from the text area down to the Windows task bar, specifically to the install shield icon.

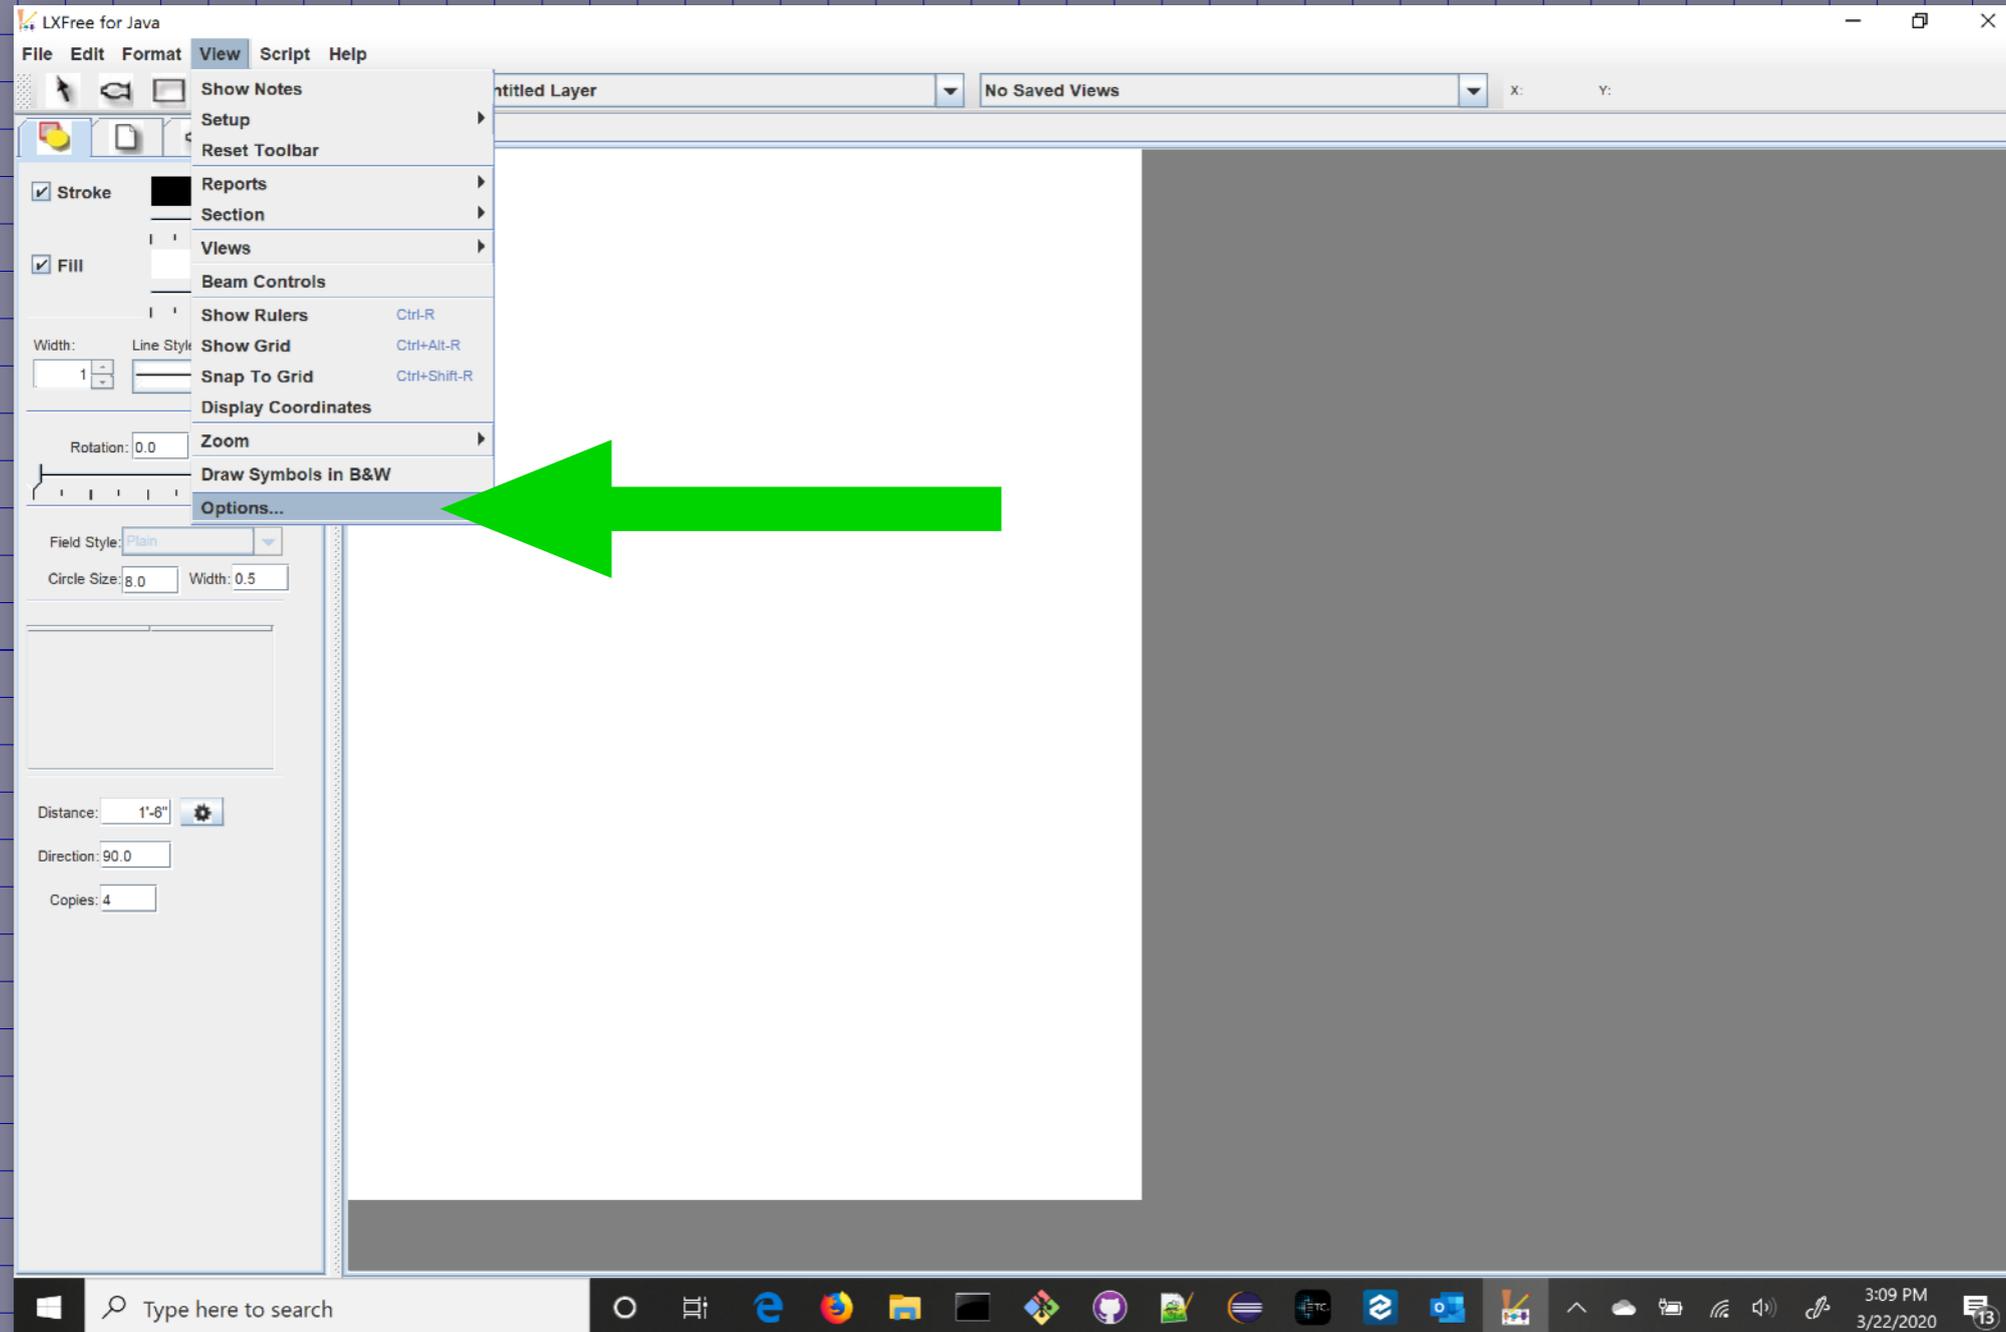

Click the install shield icon in the task bar.

When the installer is done running,  
LXFree for Java will open.

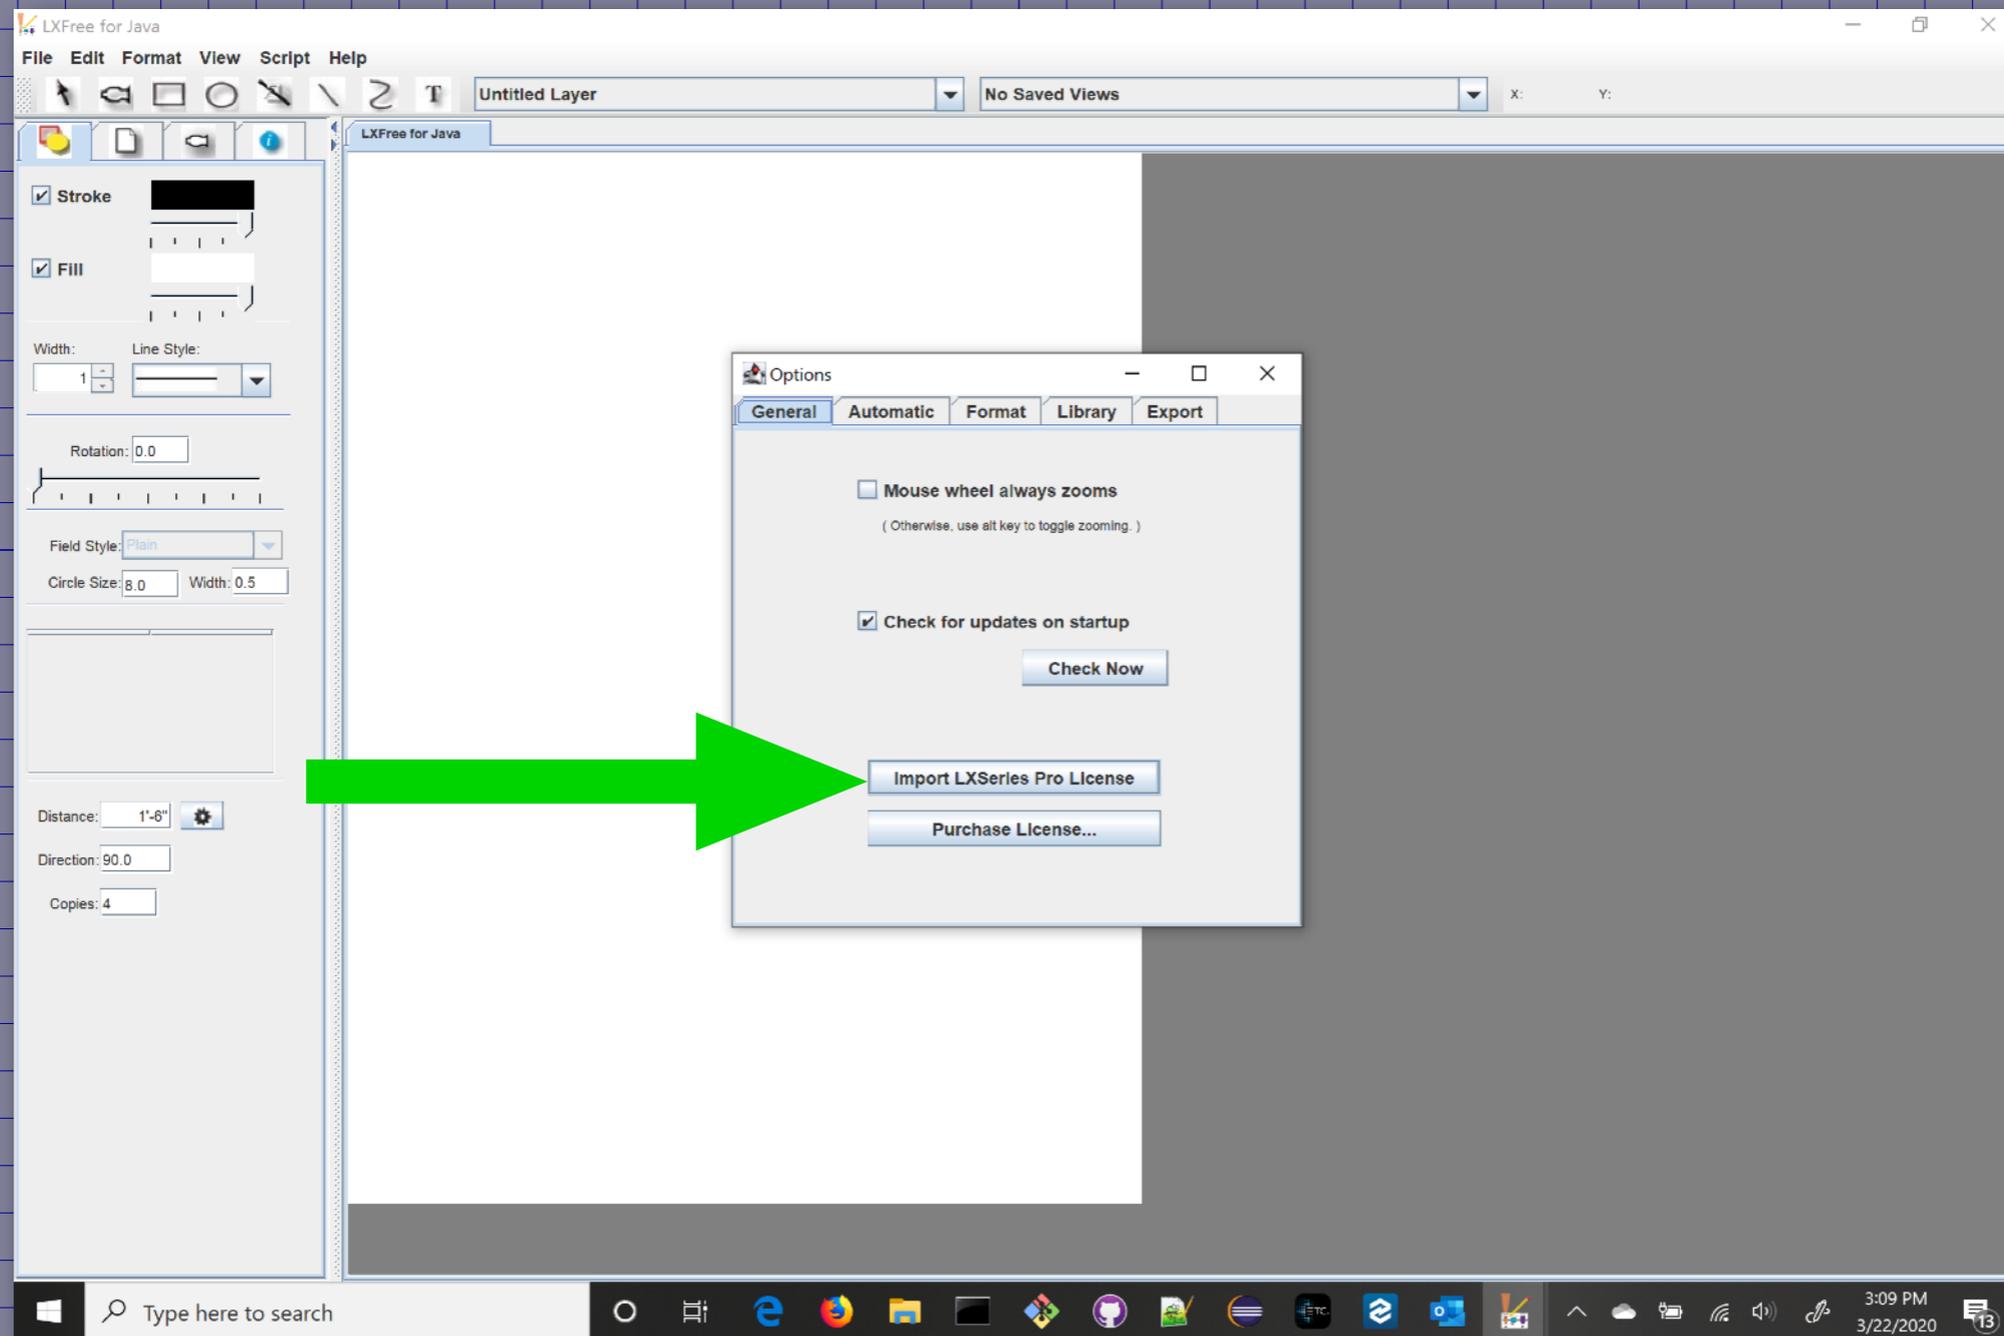

This installer includes a copy of the OpenJDK runtime.  
You do not need to install or configure Java.

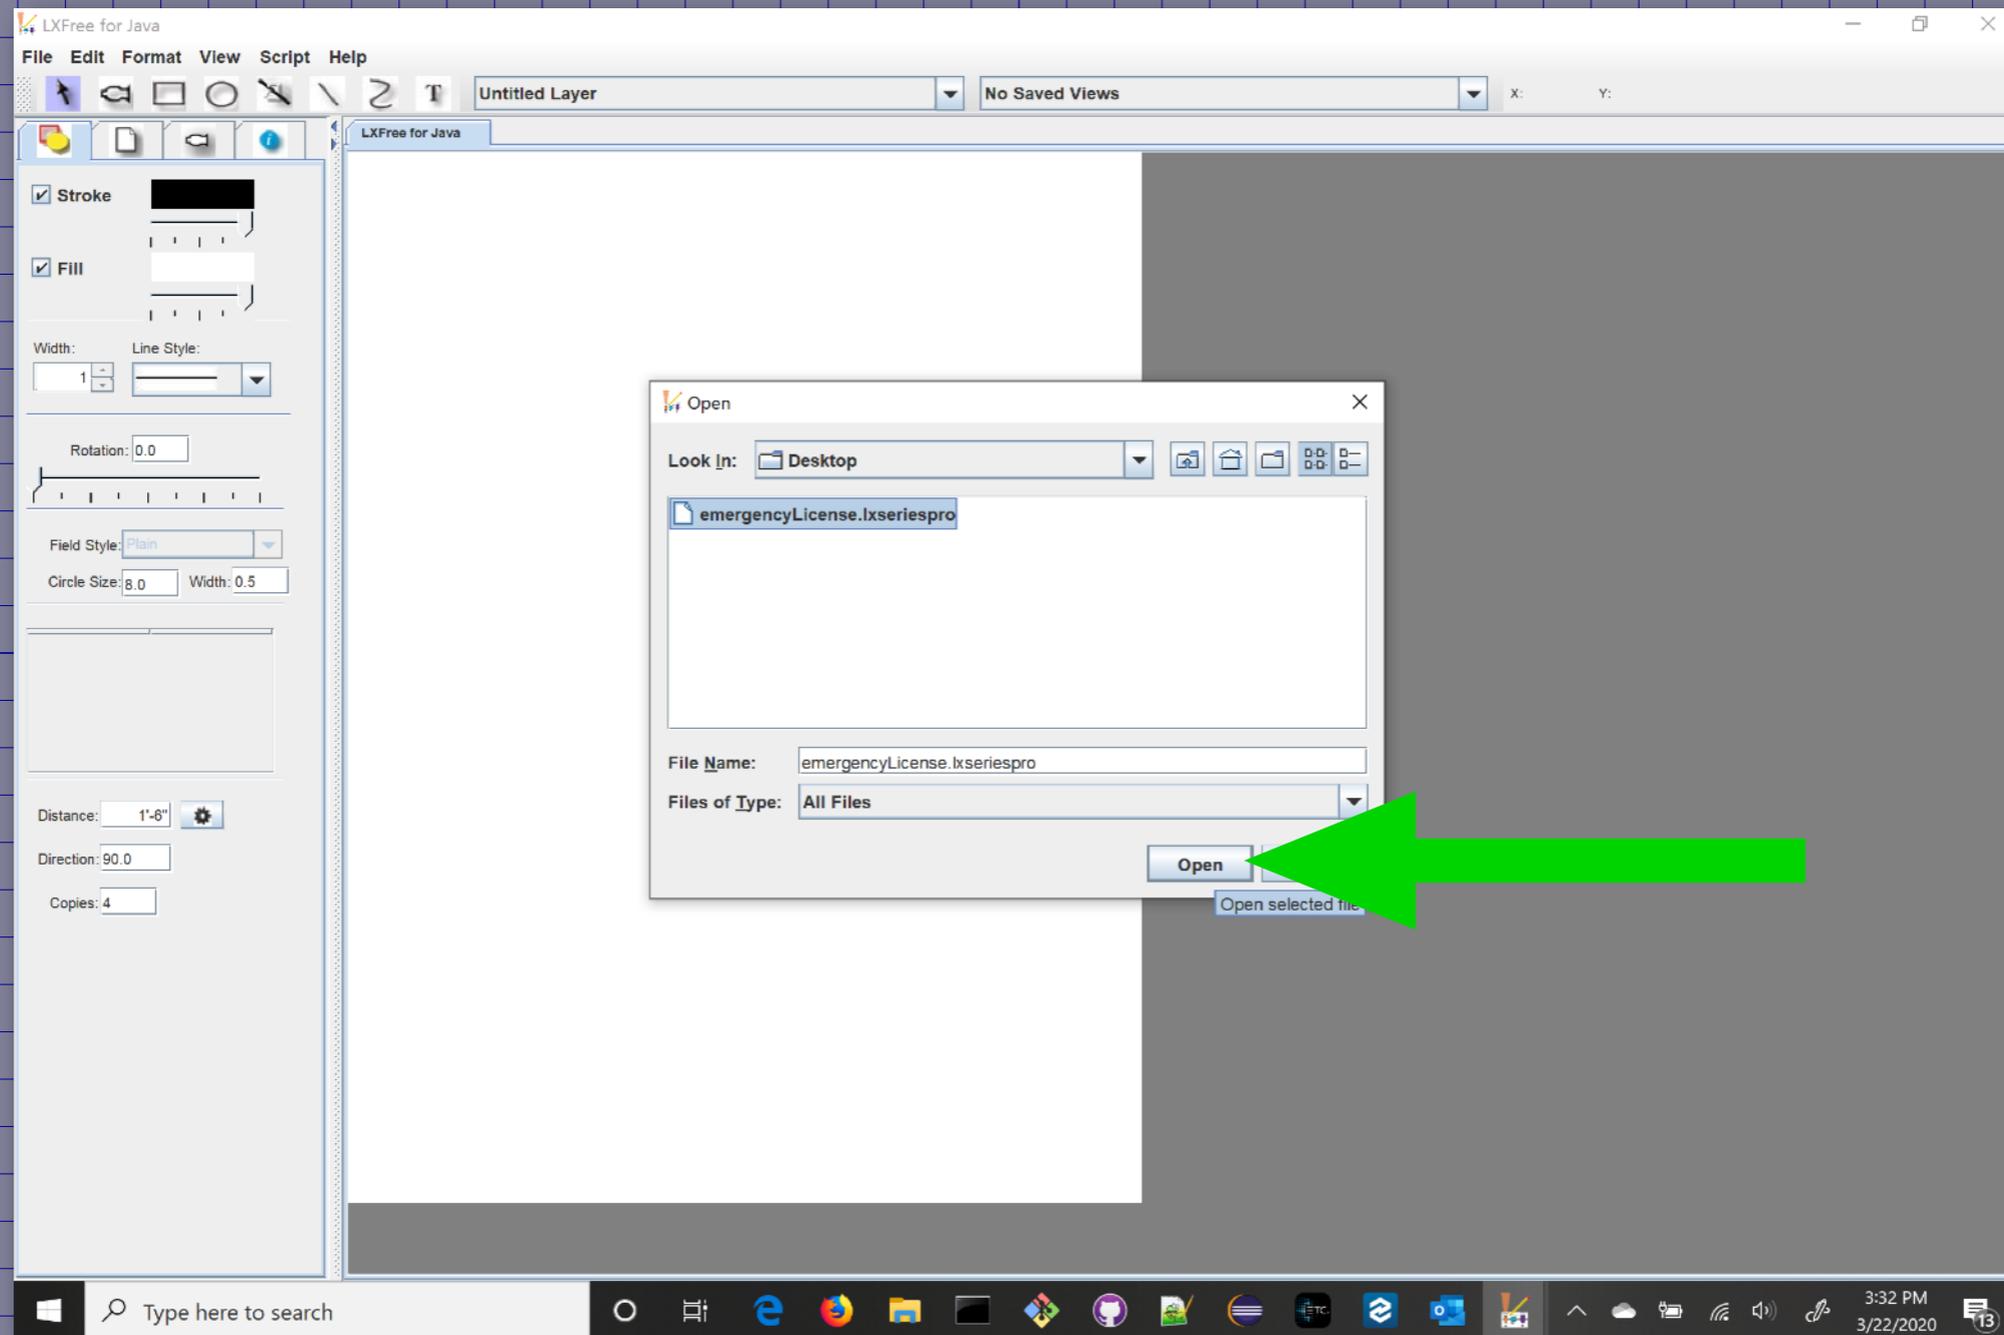

From the View menu, choose "Options..."

Click the "Import LXSeries Pro License" button.

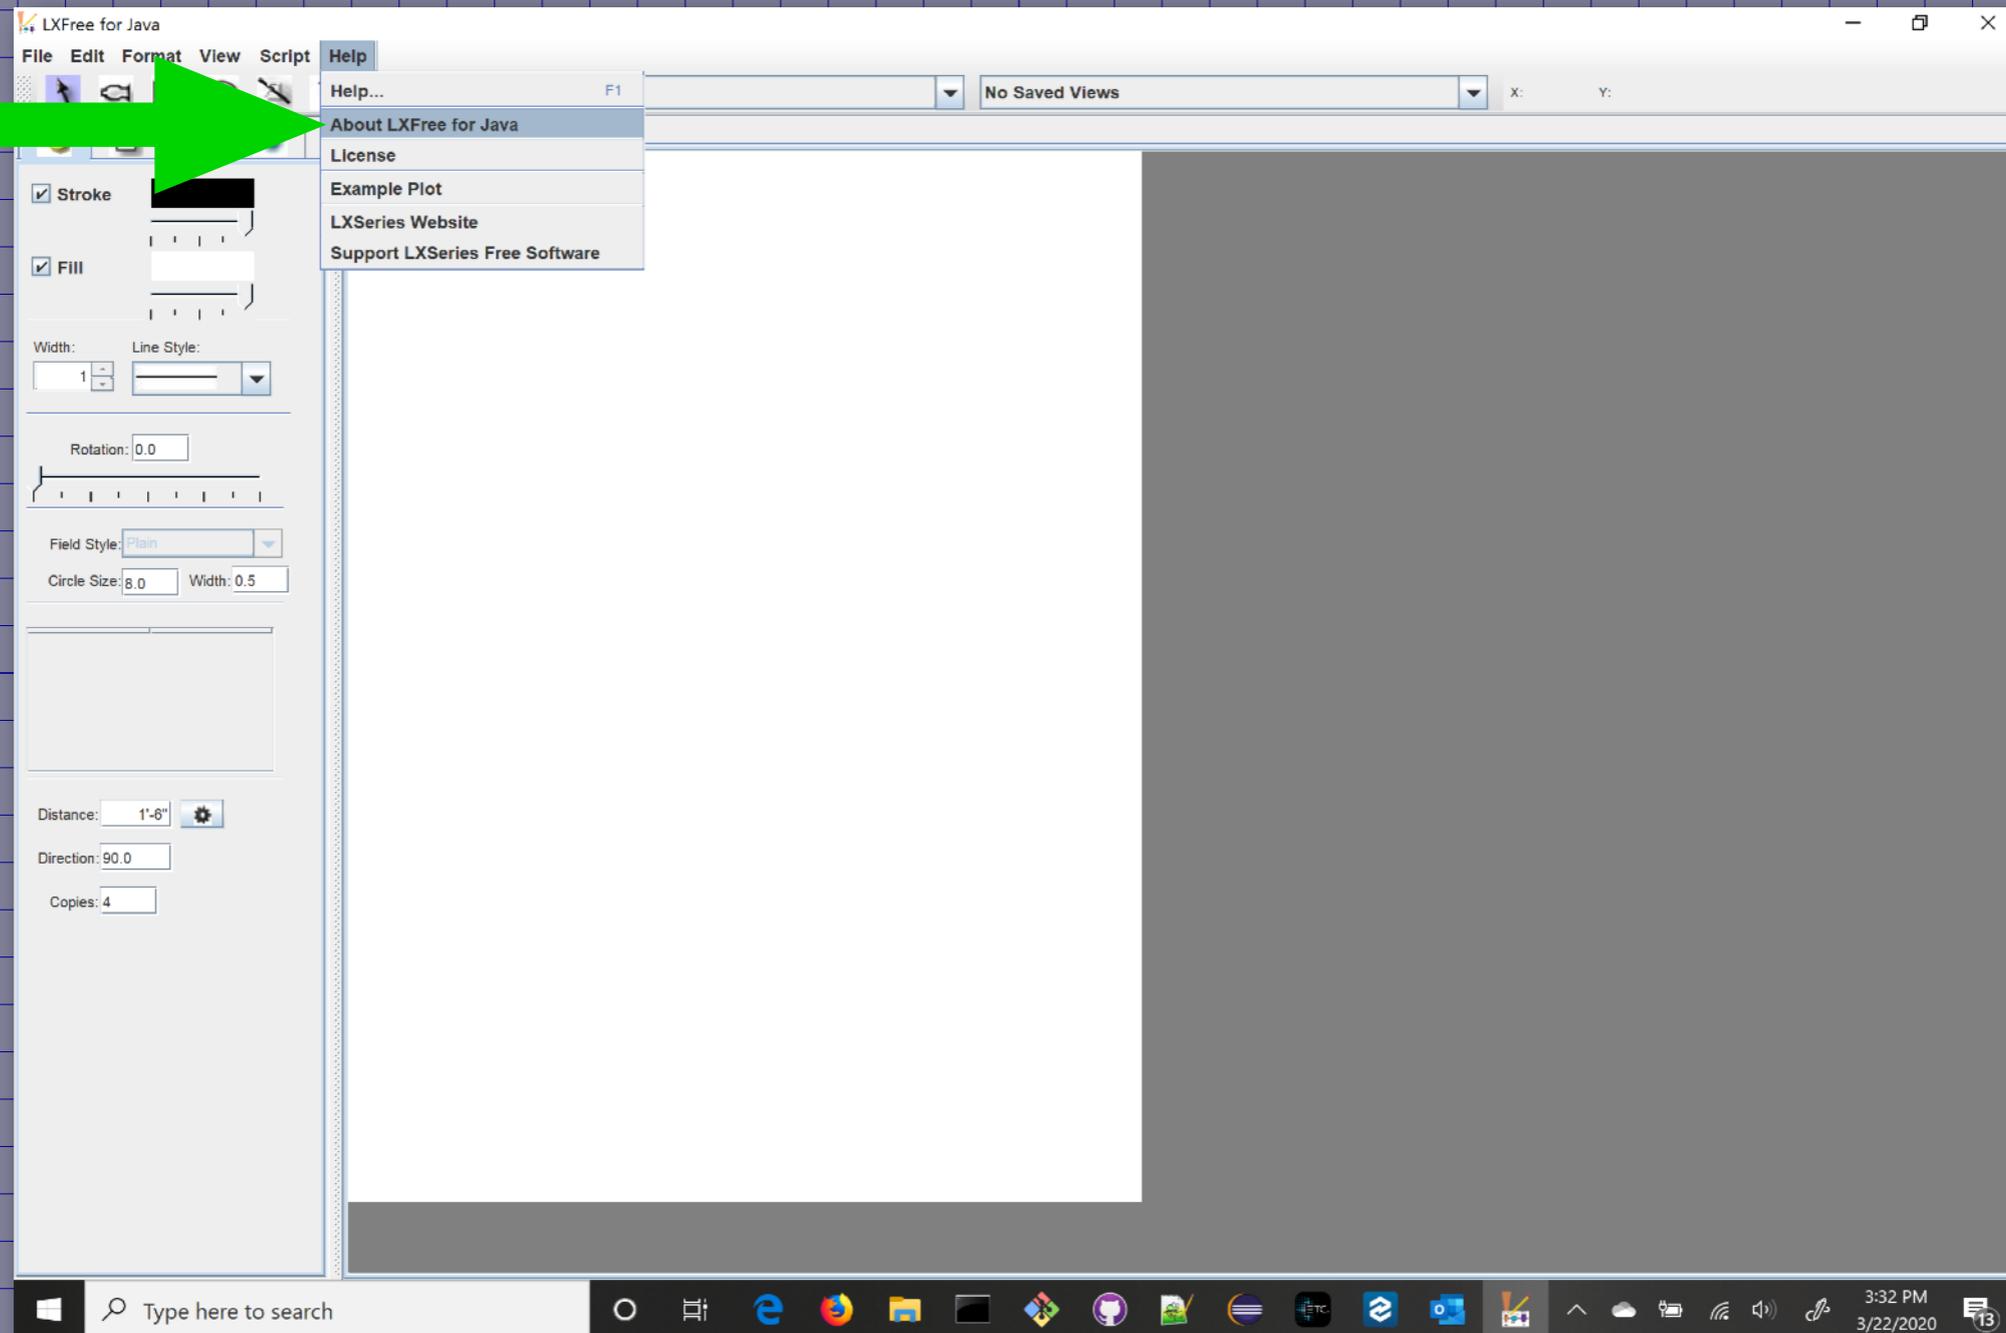

Locate the **emergencyLicense.lxseriespro** file.

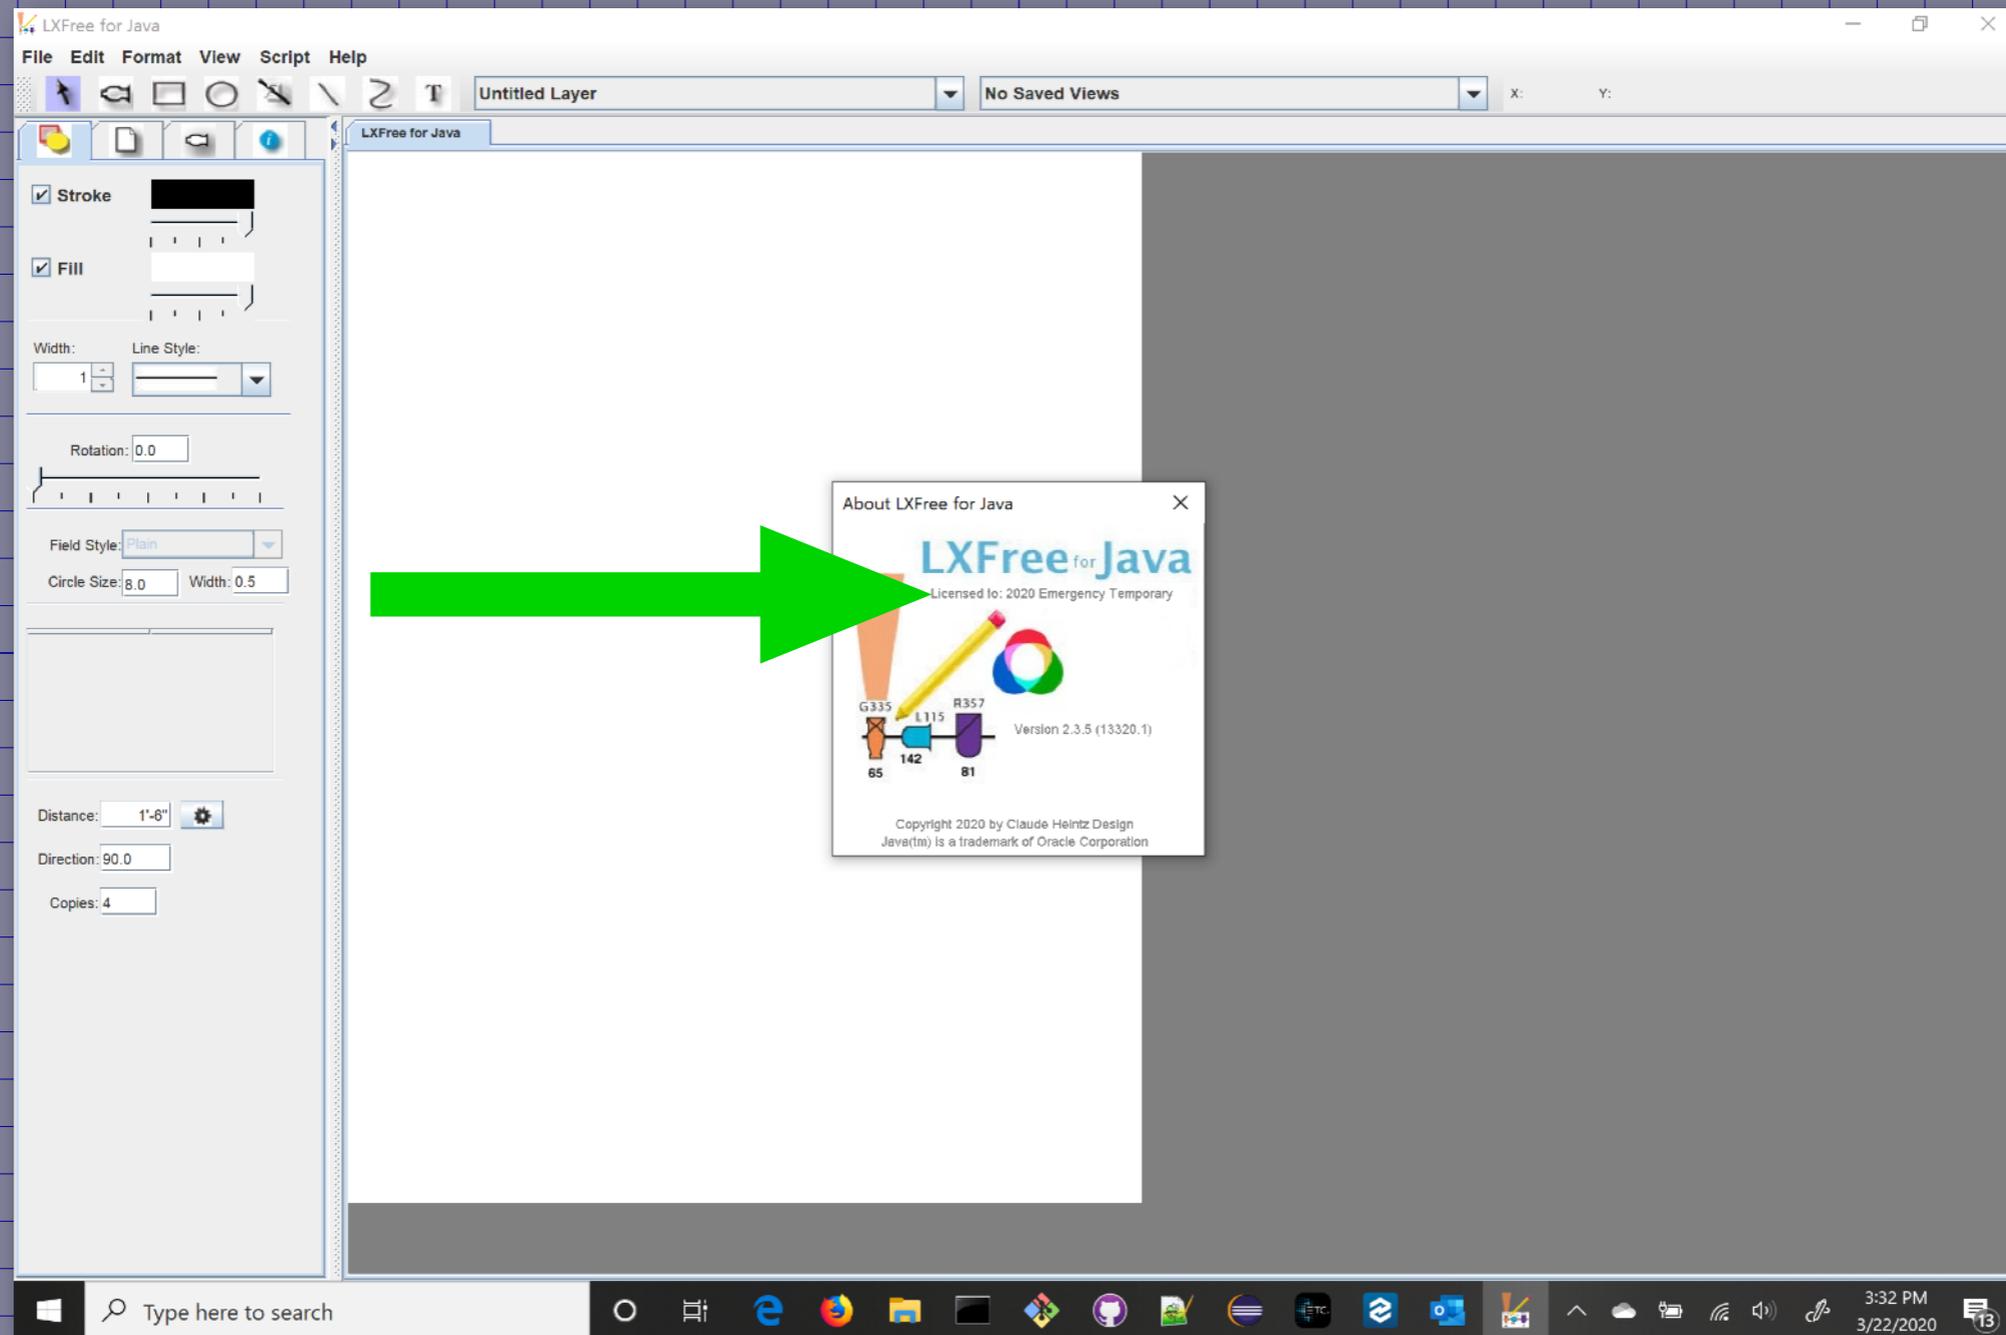

Click the **Open** button to import the license.  
(You can close the Options window once the license has been imported)

If you got an error message when you imported the license, Make sure your internet connection is working and try again.

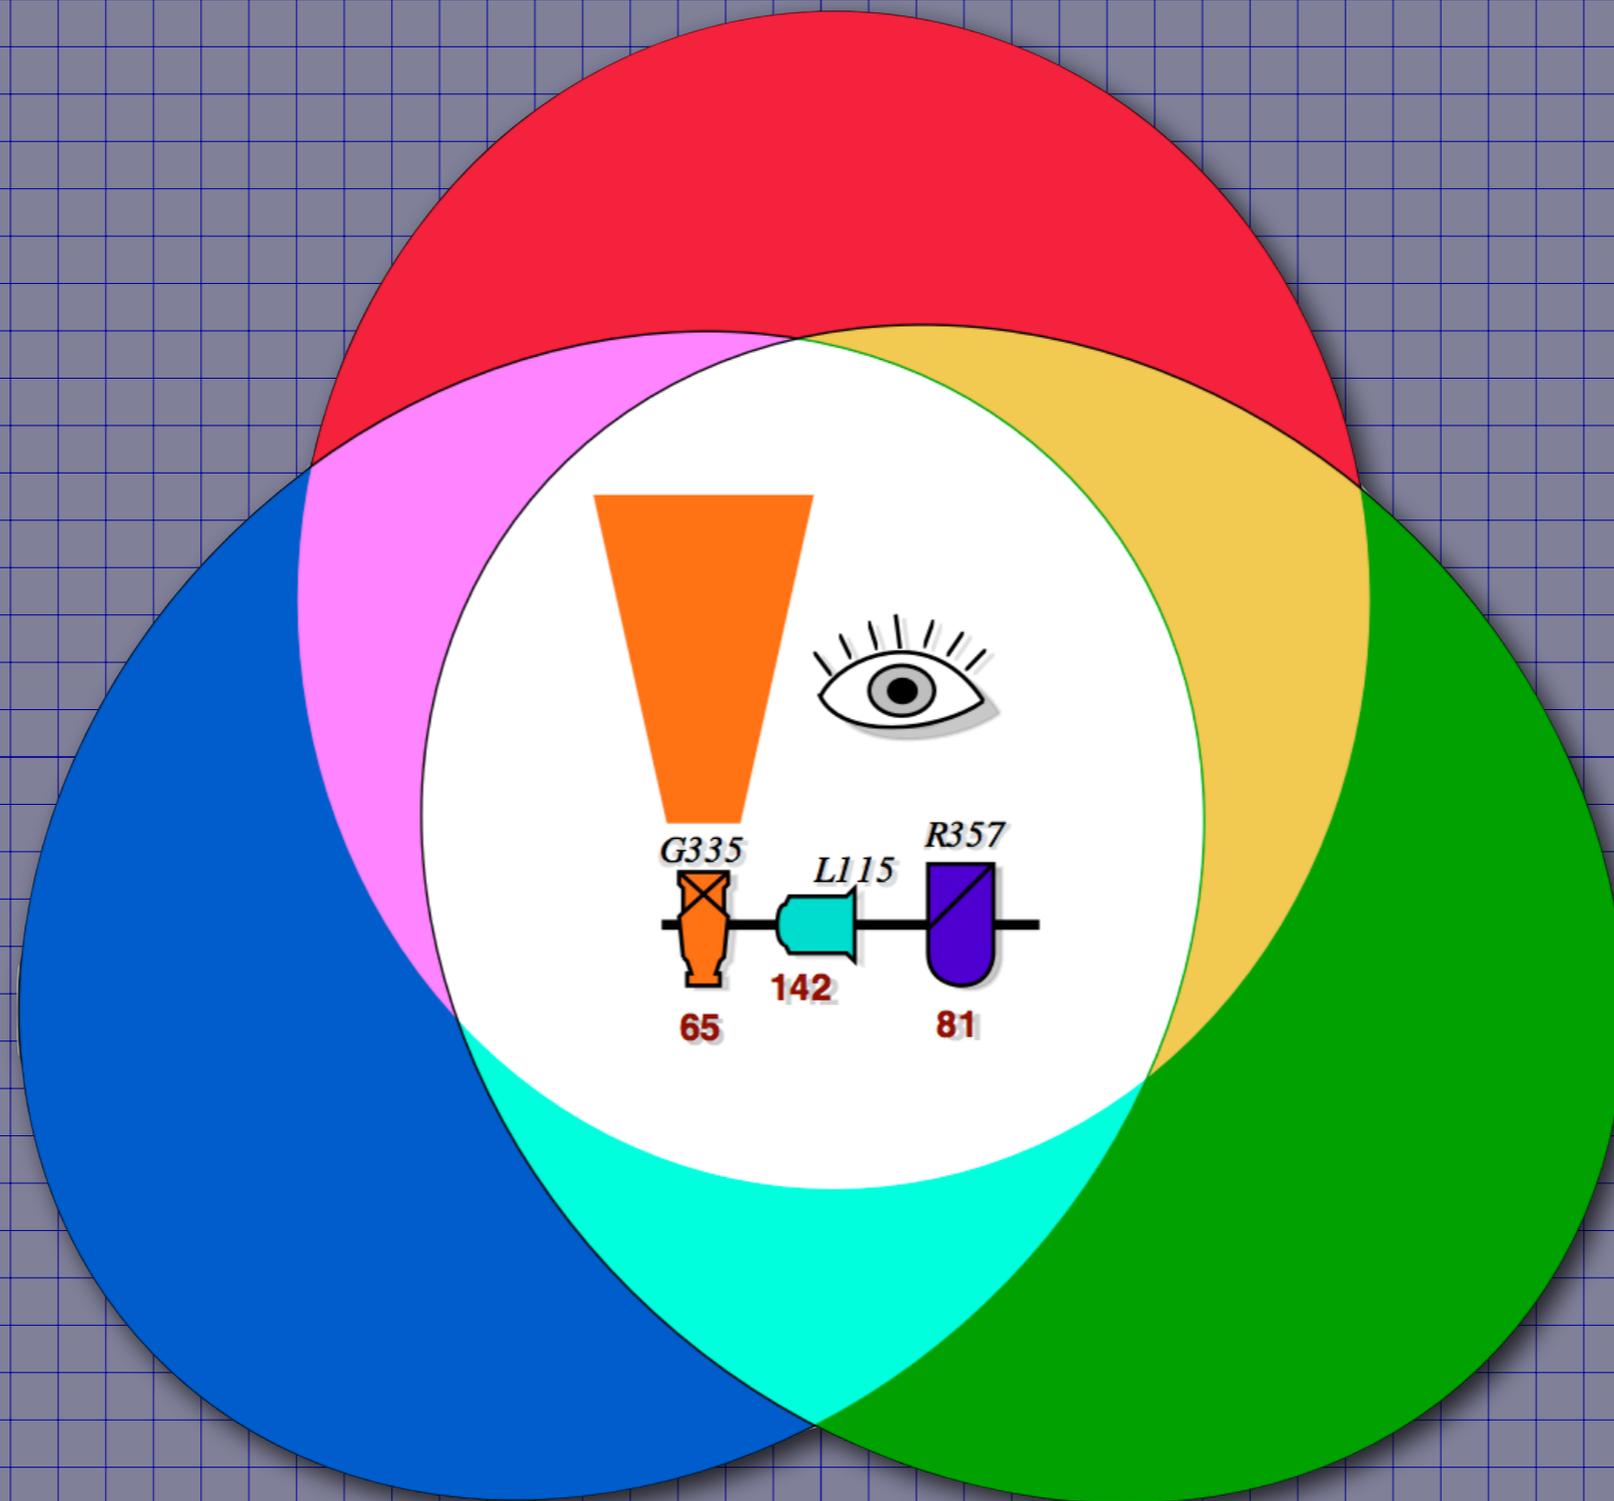

If you want to verify the license was accepted, Choose "About LXFree for Java" from the Help menu.

When the temporary license is correctly installed, The About LXFree for Java window will look like this:

The temporary license will be verified each time you start LXFree for Java. You will need an active internet connection for the license to be accepted.
